

SHRM COMPETENCY DEVELOPMENT PLAN

Accelerate Your HR Career.

shrm.org/careers

SHRM's member-only career resources can help fast-track your HR career development with easy-to-use tools that assess your HR skills and competencies and guide you toward further training and development. Based on the SHRM Competency Model, these three easy steps will get you on your way to becoming the best HR professional you can be:

1. Take the Competency Self-Assessment (CSA) to identify your competency strengths and developmental needs.
2. Use the Development Activity Wizard to get tailored learning and development activity recommendations to help build your HR expertise and competency proficiency.
3. Create a Competency Development Plan to outline your personalized strategy for putting your development goals into action.

If you are a SHRM-CP or SHRM-SCP certified member, you will receive one professional development credit (PDC) each year you complete the CSA. Use it to evaluate how best to target your professional development efforts in earning the 60 PDCs required to maintain your SHRM-CP or SHRM-SCP credential over your three-year recertification period.

Visit shrm.org/careers.

SHRM Competency Development Plan

The SHRM Competency Development Plan provides an opportunity for every HR professional to identify competency proficiency strengths and gaps, then work on activities to leverage strengths and develop in areas where the HR professional is not as strong. It is a learning action plan designed to improve immediate performance and foster readiness for long-term career goals.

1. Indicate whether you consider the competency a strength, an area for some improvement or an area in need of critical improvement for you.
2. Assign a priority level for developing the competency (i.e., how high of a priority is developing this competency in your current role).
3. Identify organizational and career goals that align with the competency.
4. Outline activities that align with your organization’s goals and your career goals to leverage strengths and build your proficiency.
5. Define how you will measure your success, what stakeholder support you will need, potential obstacles you might face and your target completion date.
6. Beginning with your highest priorities, begin engaging in the activities you identified to build your proficiency.
