Program Goal

Elevate your HR Business Partner skills to the next level through this interactive course. Push yourself to become the catalyst for change your business craves by expanding your data analysis skills to provide data driven solutions that will innovate your organizations culture. You will learn how to expand your strategic vision, analyze data, handle disruptors and consult to champion change – all for the purpose of driving positive business results in your organization and a thriving culture.

Program Objectives

- Play a vital role in your organization by learning how to critically think about and frame the leading challenges HR faces today.
- Confidently assess and address the factors that drive a healthy work culture within your organization.
- Determine the root causes of an unhealthy and potentially toxic culture and effectively design robust and responsive solutions.
- Catalyze alignment with leaders by incorporating People Analytics and producing a compelling business case for change.
- Adopt change management techniques and principles to create a culture that values innovation and a growth mindset.
- Anticipate HR disruptors and collaboratively brainstorm improvement opportunities with colleagues
