

**Every voter in America has the
right to a secret ballot.
Why shouldn't every employee?**

The **Society for Human Resource Management (SHRM)** and its 250,000 members support the fundamental right of every employee to a secret ballot in deciding whether or not to join a union. This week, SHRM members from across the country are urging Congress to uphold this basic right and to oppose the Employee Free Choice Act.

**SHRM is HR ... and HR is meeting the
challenges of a changing world.**
