

2016 Health Care Benchmarking Report

November 2016

SHRM Benchmarking Service

Are you looking for data that is customizable by industry, region, organization staff size, and more? SHRM's Benchmarking Service provides just that.

- The data in this report can be customized for your organization by industry, staff size, geographic or metropolitan region, profit status (for profit/nonprofit), sector (public/private), unionized environments, and more.
- The data in this report were collected from the 2016 SHRM Human Capital Benchmarking Survey. Additional reports available in Health Care, Paid Leave, Employee Benefits Prevalence, and Talent Acquisition.

About SHRM

Founded in 1948, the Society for Human Resource Management (SHRM) is the world's largest HR membership organization devoted to human resource management. Representing more than 275,000 members in over 160 countries, the Society is the leading provider of resources to serve the needs of HR professionals and advance the professional practice of human resource management. SHRM has more than 575 affiliated chapters within the United States and subsidiary offices in China, India and United Arab Emirates. Visit us at shrm.org.

Key Findings	4
Statistical Definitions	5
Health Care Benchmarking Survey Findings	6
Demographics	29
Methodology	38

The average total employee annual health care cost per covered employee in 2015 was **\$8,669**.

Key Findings

- **Health care coverage:** 98 percent of organizations offer health care coverage for full-time employees. Twenty-three percent of companies offer health care coverage for part-time employees, which is down from 27 percent in 2014. Ninety-two percent offer coverage for the spouse of employees, which is down from 96 percent in 2011.
- **High-deductible plans:** On average, employers contribute \$576 to their employees' HSA accounts, while employers contribute \$1,885 to employee HRAs. In 2014, employers contributed an average of \$632 to HSAs and \$2,829 to HRAs.
- **Health care costs:** The average total employee annual health care cost per covered employee in 2015 was \$8,669.
- **Prescription drug co-pays:** The average employee co-pay is \$11 for generic medication, \$33 for formulary brand medication (insurance carriers' preferred drugs) and \$58 for nonformulary brand medication.
- **Deductibles and Premiums:** Across all plans, the average annual in-network deductible for employee-only coverage is \$1,554, the total monthly premium for employee-only coverage is \$461 and the total monthly premium for family coverage is \$1,292.
- **Co-pays:** The average co-pay for in-network primary care office visits for employee-only coverage across all plans is \$22.

Statistical Definitions

“n”

The letter “n” in tables and figures indicates the number of respondents to each question. In other words, when it is noted that n = 25, it indicates that the number of respondents was 25.

Percentile

The percentile is the percentage of responses in a group that have values less than or equal to that particular value. For example, when data are arranged from lowest to highest, the 25th percentile is the point at which 75% of the data are above it and 25% are below it. Conversely, the 75th percentile is the point at which 25% of the data are above it and 75% are below it.

Median (50th percentile)

The median is the midpoint of the set of numbers or values arranged in ascending order. It is recommended that the median is used as a basis for all interpretations of the data when the average and median are discrepant.

Average

The average is the sum of the responses divided by the total number of responses. It is also known as the mean. This measure is affected more than the median by the occurrence of outliers (extreme values). For this reason, the average reported may be greater than the 75th percentile or less than the 25th percentile.
